

In Part 1 of the First Certificate Paper 1 Reading, you match the headings to the appropriate paragraphs in a text. In the first text you read about computer games, match the headings to the paragraphs, answer questions about specific information in the paragraphs and learn some related vocabulary. Then you practise this question type with other texts by choosing the best heading for the paragraphs in one text, deciding the main idea of the paragraphs in another text and choosing headings for them. You do another paragraph matching exercise with the final text.

Activity 1

Text 1 > Think About it: Computer games

3 mins

Do you use your computer to play games? Why do people like computer games? Are they just a waste of time? Are the effects of computer games all bad or can they be good for us?

Our ideas:

Computer games are the fastest growing part of the computer software market. Millions of dollars go into their research and development. While some argue they have a detrimental effect on us, there are many psychologists who say that we are using and developing important skills while playing games.

Activity 2

2.	agility	(b) facts that someone has learnt about something
2.	agility	(c) the other player in a competitive game
4.	skill	(d) requiring thought and planning rather than quick reflexes
5.	opponent	(e) knowing how to do something e.g. kick a ball, read quickly

Activity 3

Reading: 'Internet Gamers' reviews

12 mins

exam tip
