**Justice, Crime, and Citizenship in Eurasia** Erica Marat,Lauren A. McCarthy,2022-08-18 What role does law play in post communist societies This book examines the law as a social institution in Eurasia exploring how it is shaped in everyday interactions between state and society organisations and individuals and between law enforcement and other government entities It bridges the gap between theoretically rich work on law in action and the empirical reality of Eurasia The contributions in this volume include research on policing the legal profession public attitudes towards law regime support and oppositional mobilisation crime policy and property rights among others The studies shift away from the common perception that in Eurasia the law exists only as a tool for the state to enforce order and suppress dissent Instead they show through empirical analyses that citizens evade use reinterpret and shape the law even in authoritarian contexts sometimes containing state violence and challenging the regime and other times reinforcing state capture from below The chapters in this book were originally published as a special issue of the journal Europe Asia Studies *A 'Macro-regional' Europe in the Making* Stefan Gänzle,Kristine Kern,2015-10-19 Macro regional strategies seek to improve the interplay of the EU with existing regimes and institutions and foster coherence of transnational policies Drawing on macro regional governance and Europeanization this edited volume provides an overview of processes of macro regionalization in Europe displaying evidence of their significant impact **Stopping the Spies** Jane Duncan,2018-06-01 Is South Africa on its way to becoming a surveillance state and will it need a whistleblower In 2013 former National Security Agency NSA contractor Edward

Snowden leaked secret documents revealing that state agencies like the NSA had spied on the communications of millions of innocent citizens International outrage resulted but the Snowden documents revealed only the tip of the surveillance iceberg Apart from insisting on their rights to tap into communications more and more states are placing citizens under surveillance tracking their movements and transactions with public and private institutions The state is becoming like a one way mirror where it can see more of what its citizens do and say while citizens see less and less of what the state does owing to high levels of secrecy around surveillance In this book Jane Duncan assesses the relevance of Snowden s revelations for South Africa In doing so she questions the extent to which South Africa is becoming a surveillance society governed by a surveillance state Duncan challenges members of civil society to be concerned about and to act on the ever expanding surveillance capacities of the South African state Is surveillance used for the democratic purpose of making people safer or is it being used for the repressive purpose of social control especially of those considered to be politically threatening to ruling interests She explores the forms of collective action needed to ensure that unaccountable surveillance does not take place and examines what does and does not work when it comes to developing organised responses
