## Human Computer Interaction Question Papers:

**Human-Computer Interaction - INTERACT 2005** Maria Francesca Costabile, Fabio Paternò, 2005-09-28 We will be sooner or later not only handling personal computers but also multi-purpose cellular phones, complex personal digital assistants, devices that will be context aware and even wearable computers stitched to our clothes; we would like these personal systems to become transparent to the tasks they will be performing. In fact, the best interface is an invisible one, one giving the user natural and fast access to the application he or she intends to be executed. The working group that organized this conference, the last of a long row, tried to combine a powerful scientific program with drastic refereeing with an entertaining cultural program so as to make your stay in Rome the most pleasant one all round. I do hope that this expectation becomes true. July 2005 Stefano Levialdi IEEE Life Fellow INTERACT 2005 General Chairman 1 Peter J Denning ACM Communications April 2005 vol 48 N 4 pp 27-31 Editors Preface INTERACT is one of the most important conferences in the area of Human Computer Interaction at the world wide level. We believe that this edition, which for the first time takes place in a Southern European country, will strengthen this role and that Rome with its history and beautiful setting provides a very congenial atmosphere for this conference. The theme of INTERACT 2005 is Communicating Naturally with Computers
