

SEAFLOOR AGES

Part 1: Divergent Boundary

The diagram is of a divergent boundary with arrows showing the direction in which the plates are moving.

1. What is the age of the rocks at Location B?
0 years old 1 million years old 2 million years old 4 million years old
2. If each plate is moving at a rate of 10 km per 1 million years, roughly how long did it take for Rock A to reach its current location?
0 years 1 million years 2 million years 4 million years
3. What is the age of the rock at Location C?
0 years old 1 million years old 2 million years old 4 million years old
4. Why should your answer to Question 3 be twice your answer to Question 2? Revise your answers if necessary.
5. Where is the oldest ocean crust found? A B C
6. A map of the Atlantic Ocean is shown to the right. There is a divergent plate boundary running north-south in the middle of the ocean. Make a prediction: where are the oldest rocks in the Atlantic Ocean found?
D E
7. Two students are debating about the relative ages of the rocks that make up the crust in the Atlantic Ocean.

Student 1: The oldest rocks are located at E because it is the farthest from a continent. The rocks would take a really long time to get to the middle of the ocean.

Student 2: But this ocean has a divergent boundary in the center. This means that rocks at E are really young. D is farthest from the divergent boundary, so that's where the oldest rocks are.

With which student do you agree? Why?

Lecture Tutorials For Introductory Geoscience Answer Key

Peter L. Kresan, Reed Mencke

Lecture Tutorials For Introductory Geoscience Answer Key:

Lecture Tutorials for Introductory Geoscience Karen M. Kortz, Jessica J. Smay, 2019-12-03 A set of brief worksheets designed to be completed by students working alone or in groups Lecture Tutorials in Introductory Geoscience engage students in the learning process and make abstract concepts real Through the use of effective questioning step by step learning and a progression of simple to complex visuals Lecture Tutorials help students construct correct scientific ideas about often difficult topics while dispelling common misconceptions Research based on extensive classroom use shows that Lecture Tutorials increase student learning more than just a lecture alone

Lecture Tutorials for Earth Science Karen M. Kortz, Jessica J. Smay, 2019-12-16 Get actively involved in the practical application of earth science concepts as you learn to navigate common pitfalls and misconceptions related to content from any introductory earth science course with Lecture Tutorials in Earth Science
