

LOCKING AND UNLOCKING THE DOORS (2/2)

Electric central locking

It simultaneously locks or unlocks the doors and the tailgate.

Lock or unlock the doors by pressing switch 4.

The front door mechanism cannot be locked if the door is open.

Never leave your vehicle with the key or remote control inside.

Driver's responsibility

If you decide to keep the doors locked when you are driving, remember that it may be more difficult for those assisting you to gain access to the passenger compartment in the event of an emergency.

Locking the opening elements without the radio frequency remote control

For example, in the event of a discharged battery or the radio frequency remote control temporarily not working.

With the engine switched off and an opening element (door or boot) open, press and hold switch 4 for more than five seconds.

When the door is closed, all the doors and the tailgate will be locked.

The vehicle can only be locked from the outside using the radio frequency remote control.

Door and tailgate status indicator

With the ignition on, the warning light integrated in switch 4 informs you of the locking status of the opening elements:

- indicator light on, the doors and tailgate are locked;
- indicator light off, the doors and tailgate are unlocked.

When you lock the doors, the indicator light remains lit and then goes out.
