Kobett, Francis (Skip) Fennell, Karen S. Karp, Delise Andrews, Sorsha-Maria T. Mulroe, 2021-04-08 Detailed plans for helping elementary students experience deep mathematical learning Do you work tirelessly to make your math lessons meaningful challenging accessible and engaging Do you spend hours you don't have searching for adapting and creating tasks to provide rich experiences for your students that supplement your mathematics curriculum Help has arrived Classroom Ready Rich Math Tasks for Grades 4 5 details more than 50 research and standards aligned high cognitive demand tasks that will have your students doing deep problem based learning These ready to implement engaging tasks connect skills concepts and practices while encouraging students to reason problem solve discuss explore multiple solution pathways connect multiple representations and justify their thinking They help students monitor their own thinking and connect the mathematics they know to new situations In other words these tasks allow students to truly do mathematics Written with a strengths based lens and an attentiveness to all students this guide includes Complete task based lessons referencing mathematics standards and practices vocabulary and materials Downloadable planning tools student resource pages and thoughtful questions and formative assessment prompts Guidance on preparing launching facilitating and reflecting on each task Notes on access and equity focusing on students strengths productive struggle and distance or alternative learning environments With concluding guidance on adapting or creating additional rich tasks for your students this guide will help you give all of your students the deepest most enriching and engaging mathematics learning experience possible **The Art of Learning Math** Susan

Midlarsky, 2024-07-23 Many parents and teachers struggle with math How many times have you heard I hate math Math is not my thing or I can't do math In our culture innumeracy is acceptable This acceptance fails to account for innumeracy's lifelong consequences from not understanding statistics used in science and news to difficulty managing finances The Art of Learning Math is a journey into what makes math meaningful It takes the reader through the developmental stages of

learning math from infancy to adulthood It weaves stories examples research references reasons the arts and evolutionary understandings to make it relevant and comprehensible to readers It also provides concrete actionable tools to help the reader be successful in their endeavor whether that is to educate groups of children their own children or themselves
