

Excelability in Advanced Latin

No matter what author or what curriculum is being followed, *Excelability in Advanced Latin* is the perfect supplement to advanced Latin classes, where reading is the underlying goal. Reading (and translating) at sight, however, is an ultimate goal and is what is primarily tested on standardized examinations such as the SAT II[®], the first section of the Advanced Placement[®] Latin Test, and the National Latin Examination.

Latin sight passages taken from a wide variety of authors and metrics, modeled after the types of questions asked on the standardized tests, abound in *Excelability in Advanced Latin*. The first ten chapters systematically review Latin grammar and contain both exercises on the grammar and syntax as well as passages from ancient Roman literature with exercises. Two additional chapters offer an introduction to rhetorical devices and to meters most commonly seen in Latin poetry. The final two chapters contain Latin passages for the student to read with exercises to match each passage.

Features of this workbook:

- Introduction that explains how to read a previously unseen passage of Latin
- grammatical and syntactical explanations of the structure of Latin in 10 sections with • examples that explain and enlighten • exercises on the information presented in each chapter • passages of Latin (a few adapted but most unadapted) that feature concepts presented in each chapter
- frequently encountered rhetorical devices with definitions and exercises and commonly used meters with instructions on scanning
- test-taking tips
- two sections of comprehension passages • with objective questions of the type encountered on the Latin SAT II and NLE • with the type of questions featured on the free response section of the Advanced Placement[®] Latin Examination
- epilogue on the events of September 11, 2001
- full grammatical appendix of Latin forms
- separately available Teacher's Guide
