

“A Modest Proposal”

Like Jonathan Swift, your group will create your own “Modest Proposal.”

You are going to attack an evil you see in society today by creating a satirical “modest proposal” for its solution, something so outrageously horrifying that your audience will see at once the tragedy of the situation.

Remember: As Swift was, you might be attacked for insensitivity. Your moral outrage must be made clear by gross exaggeration. Think creatively and thoroughly, because your proposal will count as a major grade. You will present your proposals on _____!

Guidelines:

1. State your problem and why it's a problem?
2. State your solution.
3. By using logical, ethical, and emotional appeals, state how your solution solves the problem.
4. State the benefits for society, the everyday family, and even how it will benefit the “problem.”
5. State the disadvantages (if any) in a casual, melancholy way like Swift did.

Ideas: (However, you are not limited to these suggestions)

- Global warming
- War
- Gasoline/Oil
- Pollution
- World Hunger/Famine
- Disease
- Animal Extinction
- Genocide
- Crime
- Abuse- adult and child
- Welfare
- Poor economy

Instructor's Guide to the Dolphin Reader Douglas Hunt, 1990 **Social Communication in Advertising** William Leiss, Stephen Kline, Sut Jhally, 1990 Now available in a significantly updated second edition featuring two new chapters Social Communication in Advertising remains the most comprehensive historical study of advertising and its function within contemporary society It traces advertising's influence within three key social domains the new commodities industry popular culture and the mass media which manages the constellation of images that unifies all three **Entailment, Vol. II** Alan Ross Anderson, Nuel D. Belnap, Jr., J. Michael Dunn, 2017-03-14 In spite of a powerful tradition more than two thousand years old that in a valid argument the premises must be relevant to the conclusion twentieth century logicians neglected the concept of relevance until the publication of Volume I of this monumental work Since that time relevance logic has achieved an important place in the field of philosophy Volume II of Entailment brings to a conclusion a powerful and authoritative presentation of the subject by most of the top people working in the area Originally the aim of Volume II was simply to cover certain topics not treated in the first volume quantification for example or to extend the coverage of certain topics such as semantics However because of the technical progress that has occurred since the publication of the first volume Volume II now includes other material The book contains the work of Alasdair Urquhart who has shown that the principal sentential systems of relevance logic are undecidable and of Kit Fine who has demonstrated that although the first order systems are incomplete with respect to the conjectured constant domain semantics they are still complete with respect to a semantics based on arbitrary objects Also presented is important work by the other contributing authors who are Daniel Cohen Steven Giambrone Dorothy L Grover Anil Gupta Glen Helman Errol P Martin Michael A McRobbie and Stuart Shapiro Robert G Wolf's bibliography of 3000 items is a valuable addition to the volume Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Moral Exemplars in the Analects Amy Olberding, 2013-03-01 In this study Olberding proposes a new theoretical model for reading the Analects Her thesis is that the moral sensibility of the text derives from an effort to conceptually capture and articulate the features seen in exemplars exemplars that are identified and admired pre-theoretically and thus prior to any conceptual criteria for virtue Put simply Olberding proposes an origins myth in which Confucius already and prior to his philosophizing knows whom he judges to be virtuous The work we see him and the Analects authors pursuing is their effort to explain in an organized generalized and abstract way why pre-theoretically identified exemplars are virtuous Moral reasoning here begins with people and with inchoate experiences of admiration for them The conceptual work of the text

reflects the attempt to analyze such people and parse such experiences in order to distill abstract qualities that account for virtue and can guide emulation

Seven Constructivist Methods for the Secondary Classroom Ina Claire Gabler, Michael Schroeder, 2003 Designed especially for secondary teachers this book grounds a constructivist approach in 7 discrete instructional methods These student centered methods with accompanying planning templates range from various types of discussions and interactive mini lectures to independent student exploration The book discusses in detail 13 techniques that carry out methods from questioning and personalizing to heuristics and role playing Secondary school teachers and administrators

Environmental Justice Peter S. Wenz, 1988-04-07 This book explores the philosophical background of questions on environmental justice It focuses on theories of distributive justice primarily those which concern the manner in which benefits and burdens should be allocated when there is a scarcity of benefits relative to people s wants or needs and a surfeit of burdens It is one of those rare philosophy books that is at once accessible and sophisticated as it introduces both philosophers and people interested in environmental studies law and economics to germane developments in the philosophical treatment of the question of justice Since environmental concerns are uniquely global theories of distributive justice are tested most thoroughly for their comprehensiveness when they are applied to environmental matters Consequently most illustrations and applications in this book are drawn from contexts of environmental concerns including property rights human rights animal rights general utility and hypothetical contracts
