Renaissance language English abstract Nor dread nor hope attend A dying animal A man awaits his end Dreading and hoping all He knows death to the bone Man has created death W B Yeats Death If Yeats is right by saying that man has created death or rather the idea of death then it is not surprising that what people thought about death in the past differs from the attitudes we have today and even across different cultures the feelings concerning death and its representation vary As Neill states in his study Renaissance tragic drama is about the discovery of death and the mapping of its meanings and he mentions that Hamlet is a play whose action is obsessively concerned with the exploration of mortality 1997 1 According to Zimmerman the play creates an unsettling atmosphere of existence on the margins of half states in which neither life nor death holds sway 2005 172 This in betweenness is also something that Julia Kristeva investigates in her influential study The powers of Horror An Essay on Abjection 1980 She develops the theory of the abject which is primarily concerned with the state of something that is between subject and object and therefore arouses a feeling of uncanniness This paper is concerned with the exploration of these margins and half states concerning death in Hamlet The investigation has two main aims First it wants to identify occurrences of death in Hamlet which are marked by ambiguity and uncertainty i e with an abject death according to Julia Kristeva s theory Second it tries to answer the questions why a particular appearance of death in the play is abject and whether cultural conventions and the religious development of the Reformation in England at that time influenced the effects and affects evoked with the Elizabethan audience Shakespeare s plays are works that live as much in their written printed as in their performative re productions and that are therefore most fruitfully examined in both forms side by side Aebischer 2004 13 Taking this assumption as a preliminary the analysis in this paper focuses on the text of the play as well as on practical questions concerning performance and stage conventions in the Elizabethan time Starting with Shakespeare Todd Daubert,Pauline Nelson,2000-03-15 William Shakespeare comes alive for students with these engaging activities Immersing students in his life and times and characters this book introduces elementary students to four plays A Midsummer Night s Dream Macbeth Hamlet and Romeo and Juliet A complete historical background an introduction to the characters a retelling of the story a variety of integrated activities verses for memorization a complete script for class performance and a list of resources accompany each play Activities extend learning to history geography science art music movement math and language arts Grades K 5 adaptable to higher levels Glencoe Literature ,2001 State adopted textbook 2001 2007 Grade 7 Elson Grammar School Fourth Reader William Harris Elson,Christine M.
