### Shakas Legacy and the Myths that surround his life

Throughout our lives we have heard people tell stories about "the greatest Zulu king Shaka Kal'entlangak'ona" we have also read many books talking about this man and his character, some stories are pleasing and some just show him as this evil tyrant of a king that killed his own people for his own amusement, it is without a doubt that some of these stories were myths and in this essay we are going to look into the various interpretations of Shaka's life and all the myths such as the "infecase theory" which has developed about him by looking at historical texts and sharing some of my own information about why Shaka's legacy although sometimes harsh is clearly contentious by looking at his life throughout the 1800's until his assassination and how the idea of him as a tyrant grew after his passing.

Some historians such as Cobbing deny the existence of such a thing as the infecase wars as he believes that time was used for the creation of Shaka the monster to cover up for illegal labor and land occupation by the settlers<sup>1</sup>, some African scholars have joined the western scholars in discussing the image of Shaka and his part in the infecase wars, unlike Cobbing they do not deny the existence of the infecase but they acknowledge the existence of uprisings in South Africa during the 1800's but do not attribute it to the Zulu's<sup>2</sup>, to some extent Cobbing's theory may be correct as he explains in his literature that early settlers that had made contact with the Zulu's and Shaka did not receive any hostility from him in fact they say he was a great diplomat and good to his European guests<sup>3</sup>

One of the most prevalent myths about Shaka is that he was a blood thirsty tyrant that killed everybody and was a major cause of the infecase period, this idea or image of Shaka is shared throughout many African homes even today, this myth as I would call it was made popular to the British colonial office by a European settler by the name of Henry Francis Fynn in order for the office to fund his expeditions, this finding about Shaka lacked evidence it also was ironic coming from Fynn as he was the one that mentioned Shaka as a good trading partner<sup>4</sup>, this myth does not hold much ground as Hamilton explains that infecase was more complex than just it being about one man that killed everybody, it was not caused by Shaka and the Zulu's alone<sup>5</sup> but also by European expansion and the movement of other African tribes because of certain changes
